Comments.

25X1 (1) THE volume of daily leave traffic from and to Brest Litovsk during the period from 11 to 14 December exceeded that of the period from 1 to 10 December.

25X1 (2) The two sources probably referred to the same train which carried an element of the 38th (1) AT Arty Brig of the XIX Gds Mts Rifle Corps from Berseburg.

25X1 (3) [REDACTED] The unit probably returned to its home station from firing practice at the Ohrdruf troop training grounds.

25X1 (3) [REDACTED] a tank component of the 20th Gds Necz Div which may either be the unidentified Gds Lv Tank SP Regt or the tank battalion of one of the division's mechanized regiments. The unit probably went to Letzling Heath for firing practices. Compare with a report of late November on the loading and unloading of tanks at the Colmirstedt railroad station.

25X1 (4) [REDACTED] Other reports also indicate that occasional firing practice was held at several troop training grounds in November and early December 1951.

25X1 (4) [REDACTED] carried elements of the HQ Third Gas Necz Army or army headquarters units from Luckenwalde. Compare with reports [REDACTED] on the movement of such units from Luckenwalde to the Lüdensdorf area.
